The draft circular
seems to be all right.

To emphasise the need for more than ordinary scrutiny in places adjoining areas over which long term leases are in operation, the following sentence may be added to para 3 of the draft in the place marked

~~"This precaution is of particular importance in localities which adjoin areas over which the long term lease is in operation or from~~

Please see my corrections in
draft notification.

As regards suggested addition
to para 3 I do not quite see
the meaning of the expression
"or from which today is likely
to be supplied to such areas".
Suppose this is omitted. Will
it alter the sense? Then
again what are the areas
referred to in "such areas"
with there bearing today
in which both rates
of tree tax will prevail?
I doubt it.

Serial
No.

The suggested addition may be omitted. (The wording is also slightly inaccurate). It will be sufficient if the words "to licensees paying the lower rate of tax" be added after the word "licensees" in rule 3 of the draft. This is only to make the meaning quite clear to the Excise Officers.

General No. 9320

Enclosure No. 1 in 2.

SUBJECT.

Submitting a draft
circular to prevent the long
term licensees of Toddy shops
from passing supplies
to the licensees for 1911-12

Office of the Excise Commissioner
in Mysore,

No.

Dated Bangalore, 11th May 1911.

Circular Memorandum.

With a view to ensure that the toddy derived from trees paying the lower rates of tree-tax ^{on a long term lease} does not pass to those who have to pay ~~of tree tax during the year~~ the higher rates ~~of~~ 1911-12, the following instructions are issued for the guidance of all the officers concerned.

1. The trees for the two classes of men should, as far as possible, be selected and marked in different localities.
2. The Excise Inspectors shall forthwith make out Talukwar lists of the shops ^{groves} that are to pay the higher rate of tree-tax and submit them to the District Excise Officer.
3. In issuing tapping licenses, ^(to licensees paying the lower rate) each application will be scrutinized in respect of the probable quantity of toddy derivable from the trees asked for so that a larger number of trees than - - necessary for the shop is not granted. In regard to shops paying the higher tree-tax the applications will be examined in view to ascertain if a smaller number of trees than is necessary is applied for. An idea of the requirement of the shops will be arrived at, striking the average for the past 3 years.
4. In Taluks where both rates of tree-tax prevail there should be more frequent inspections of the groves by the District Excise Officer and his subordinates.
